CAUTIONS / MISE EN GARDE / ATTENZIONE / VORSICHT / PRECAUCIÓN

- Do not recharge the batteries. The battery is not designed to be charged by any electrical source. Charging could generate gas and internal short-circuiting, leading to distortion, leakage, overheating, explosion or fire
- Do not expose the batteries to temperatures above 140ºF, disassemble the batteries, or damage to this unit and/or serious personal injury may result.
- Never allow liquid leaking from the battery to get in your eyes or mouth as this liquid could cause serious personal injury. If it comes in contact with your eyes or mouth, flush them immediately with plenty of water and consult a physician.
- Always keep batteries out of the reach of infants and young children to prevent them from being swallowed. If swallowed, consult a physician immediately.
